Letter from M.R.Ry. K. P. Krishnan Nair Avl., B.A., Special Assistant Settlement Officer in charge, Party No.III, Mangalore, R.O.C.A.2-No.3356/34-2, dated the 16th January 1935.

RESOLUTION:-

The Superintendent, Government Press is requested to print and supply the Special Assistant Settlement Officer in charge of No.III Party, Mangalore, with 1000 copies of the heading sheets and 1,98,000 copies of the inner sheets in the forms appended to these proceedings.

pp 5 & 7 infra

2. A copy of the form of resettlement register for South Kanara as approved by the Board is submitted to Government for information. The form differs from the standard form printed as Appendix XXXIII to Section II of the Resettlement Manual in the following two particulars and the reasons for the deviation are explained below:

p5 infra

p 61 y (M)

(1) Column 3 in the standard form with the heading "Government (G) or Inam (I)" has been omitted. This was done on the representation of the Special Assistant Settlement Officer that there are inams only in a dozen out of the 799 villages in the district and that the total number of inam lands in the district does not exceed 120. He suggested that in the circumstances a separate column was unnecessary and that it would be enough if the word 'Inam' was entered in the remarks column against the inam lands. The Collector supported the Special Assistant Settlement Officer's suggestion and the Board accepted it.

(2) Column 5 of the standard form with the heading

"If

"If double crop rate of consolidation or composition" has been omitted and the heading of column 4 has been amplified in the case of wet lands in the following manner

"Wet (W) I, II (Single crop or double crop), III".

The alteration is due to the fact that in South Kanara wet lands are placed in three classes I, II & III. The Special Assistant Settlement Officer stated that as only lands in class II were registered either as single crop or double crop, an additional column to show double crop lands was unnecessary and that the information whether a second class wet land was single crop or double crop could very well be furnished by using the symbols "W-II-1" or "W-II-2" in column 4 of the proposed form. As the rate of composition for double crop lands is uniform throughout the district viz., 1¼th times the single crop assessment there is no need to give the information in the body of the diglott register.
